★	If the 4th dose of DTP/DTaP is administered on or after the child's 4th birthday, then the 5th dose of DTP/DTaP is not required.
◀	If the 3rd dose of IPV/OPV is administered on or after the child's 4th birthday, then the 4th dose of IPV/OPV is not required.
■	If an adolescent reaches age 11 years and has not started the HepB vaccine series, he or she may receive a 2-dose series of Merck® Adult Hepatitis B vaccine instead of the 3-dos series of pediatric HepB. However, the series must be completed before the 16th birthday or the adolescent must receive a total of 3 doses of HepB vaccine. If you have any questions about this 2-dose series of HepB vaccine, talk to your healthcare provider. All other children (younger or older) must receive 3 doses of hepatitis B vaccine.
